- **Data Analytics:** Data Cleaning, Data Analysis, Data Visualization, Dashboard Development, Exploratory Data Analysis (EDA)

## Projects

### Title: Sales Insights using PowerBI

I worked on a sales dataset downloaded from Kaggle and built an interactive dashboard using Power BI. The goal was to understand overall sales performance, profit trends, and customer behavior. I used charts and filters to make the data easy to explore, helping users quickly find insights like top-selling products, best regions, and monthly sales growth.
